DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: The prior art shows a spa cover hinge including a mounting bracket, a slide bracket, and a support arm (Perry). The prior art fails to show each of the above elements further where the support arm comprises an elongated member, a short member, and a connecting member, between the elongated member and short member having a curvature such that the short member is substantially perpendicular to the elongated member. The prior art also fails to show the slide bracket to comprise 2 side plates connected via a web, where one of the side plates has an elongated opening coupled to a pin in such a way that enables a rear end to be moved in an upward direction as the slide bracket is slidably extended from the mounting bracket.
2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
